Beverage Solutions Credit Agreement secured net leverage ratio **4.75 x**

1 – Primarily consists of \$8.8 million of pro forma run-rate impact of cost savings initiatives, as permitted by the Credit Agreement.

The Company is required to maintain compliance with, among other things, a secured net leverage ratio under the terms of its credit agreement (the "Credit Agreement") among the Company, Westrock Beverage Solutions, LLC, as the borrower, Wells Fargo Bank, N.A., as administrative agent, collateral agent, and swingline lender, Wells Fargo Securities, LLC, as sustainability structuring agent, and each issuing bank and lender party thereto. The secured net leverage ratio is calculated as secured net debt divided by Adjusted EBITDA for the trailing twelve-month period, each as defined in the Credit Agreement, and is applicable only to our Beverage Solutions segment.

Management believes that our secured net leverage ratio provides useful information to investors and other users of our financial data regarding the Company's compliance with its material financial covenants. Failure to comply with the covenants in the Credit Agreement or make payments when due could result in an event of default, which, if not cured or waived, could accelerate our repayment obligations under the Credit Agreement and could result in a default and acceleration under other agreements containing cross-default provisions. Under these circumstances, we might not have sufficient funds or other resources to satisfy all of our obligations. As of the date of this press release, the Company is in compliance with its financial covenants.

Non-GAAP Financial Measures

We refer to EBITDA and Consolidated Adjusted EBITDA in our analysis of our results of operations, which are not required by, or presented in accordance with, accounting principles generally accepted in the United States ("GAAP"). While we believe that net (loss) income, as defined by GAAP, is the most appropriate earnings measure, we also believe that EBITDA and Consolidated Adjusted EBITDA are important non-GAAP supplemental measures of operating performance as they contribute to a meaningful evaluation of the Company's future operating performance and comparisons to the Company's past operating performance. The Company believes that providing these non-GAAP financial measures to investors helps investors evaluate the Company's operating performance, profitability and business trends in a way that is consistent with how management evaluates such performance.

We define "EBITDA" as net (loss) income, as defined by GAAP, before interest expense, provision for income taxes and depreciation and amortization. We define "Consolidated Adjusted EBITDA" as EBITDA before equity-based compensation expense and the impact, which may be recurring in nature, of transaction, restructuring and integration related costs, impairment charges, changes in the fair value of warrant liabilities, non-cash mark-to-market adjustments, certain non-capitalizable costs necessary to place the Conway extract and ready-to-drink facility into commercial production, the write off of unamortized deferred financing costs, costs incurred as a result of the early repayment of debt, gains or losses on dispositions, and other similar or infrequent items (although we may not have had such charges in the periods presented). We believe EBITDA and Consolidated Adjusted EBITDA are important supplemental measures to net (loss) income because they provide additional information to evaluate our operating performance on an unleveraged basis.

Since EBITDA and Consolidated Adjusted EBITDA are not measures calculated in accordance with GAAP, they should be viewed in addition to, and not be considered as alternatives for, net income (loss) determined in accordance with GAAP. Further, our computations of EBITDA and Consolidated Adjusted EBITDA may not be comparable to that reported by other companies that define EBITDA and Consolidated Adjusted EBITDA differently than we do.
